WORK EXPERIENCE

XCALIBER INFOTECH SOFTWARE DEVELOPER	November 2022 - Present
<ul style="list-style-type: none">• Innovative Web Application Development: Engineered dynamic web applications utilizing Angular, Ionic and Bootstrap, delivering an engaging and seamless user experience.• Streamlined Authentication Processes: Seamlessly integrated Google Sign-Up authentication and reCAPTCHA, ensuring secure and efficient user authentication.• Build Tool Optimization: Enhanced build processes by transitioning from Maven to Gradle, improving build efficiency and flexibility.• Comprehensive Code Quality Assurance: Engaged in rigorous code reviews and applied best practices to ensure high-quality software solutions.• Version Control & CI/CD: Proficient in using version control systems like Git and Bitbucket for efficient code management. Gained exposure to CI/CD pipelines, particularly with Atlassian tools, for seamless integration and deployment	

PROJECTS

CHROME EXTENSION: Programmer Meme and Ad-Blocker (Fun Mini-Project)	September 2024
A fun and engaging mini-project involving the development of a Chrome extension that combines entertainment and functionality.	
<ul style="list-style-type: none">• Programmer Meme Generator: Displays random programmer-related memes for a lighthearted break during coding sessions.• Ad Blocker: Provides basic ad-blocking capabilities, enhancing the browsing experience by removing unwanted ads.	

PORTFOLIO LINK	August 2024
A responsive portfolio built with HTML, CSS, JavaScript, and Bootstrap, featuring GSAP animations that showcase my technical skills, diverse projects, and professional work experience.	
<ul style="list-style-type: none">• Responsive Design: Crafted to adapt seamlessly to different screen sizes.• GSAP Animations: Integrates GSAP (GreenSock Animation Platform) for dynamic, smooth animations throughout the portfolio.• Custom Styles with SCSS: Utilizes SCSS for advanced styling options, allowing for better management of styles.• Interactive Elements: JavaScript is used to enhance user interaction.	

FOODVILLA LINK(Frontend) LINK(Backend)	April - July 2024
Developed a comprehensive recipe application with a focus on a user-friendly interface and a robust backend system to manage recipes, user data, and orders.	
<ul style="list-style-type: none">• Recipe Management: Provides API endpoints for CRUD operations on recipes.• User Authentication: Secure user registration, login, and role-based access control with password encryption.• Ingredient Ordering: Manages ingredient availability and user orders through dedicated endpoints.• Database Integration: Uses PostgreSQL with Spring Data JPA for ORM.• RESTful API: Fully developed RESTful API for easy frontend integration.
